

Timothy Gilbert
PAP 1601 – Week 3 Burn Up List

For our last and final week, I decided to stick to the route that I started with last week as I think I was able to produce better work and more efficiently. I already completed the following tasks.

- WK 4: The Week Ahead
- Career Module: (Not enrolled)
- WK4: GoToTraining (GTT) – Archive
- WK 4: Research
- WK 4: Development

I did all of these because they had no weight to them and some of them were interesting reads. In this time, I added a few Lynda videos on MySQL with Ajax/Jquery so that I could expand that, but will have to go back and learn more because still not grasping some of the concepts and functions.

The next assignments I am currently working on. I plan on trying to finish all my work for the week in the next day or two so that I can free up my weekend to work on some freelance projects.

- WK 4: Anchor Points:
- WK 4: Call to Action – Growth (Must respond by Saturday to two class mates, so I don't make the same mistake as last week and forget)
- WK 4: SWOT Follow Up
- WK 4: Being Paid for Your Work
- WK 4: Project & Portfolio
- WK 4: Month in Review

Once I complete all of this, I am going to attempt to also reach out to the instructor for any advice on personal growth as a student so that I can take that into consideration as I move forward with my degree.
